

MINUTES OF A JOINT MEETING OF THE JMI OF FOUR STATES CONSISTING OF PLATEAU, BAUCHI, KADUNA AND NIGER STATE HELD IN BAUCHI CENTRAL MOSQUE ON THE 13TH JULY 2010 CHAIRED BY MALLAM ALI IBRAHIM PANTAMI.

This meeting is born out of the growing antagonism, hardship and how the Christians in Nigeria are attacking and despising the religion of Allah. The worrisome issue is that the south and the west of Nigeria is predominantly Christians whom Muslims are considered as animals. However, in the Northern part of Nigeria which is predominantly Muslims, the Christians want to still take over.

The main aim of this meeting is to:

- a. Address the growth and the spread of Christianity in the North.
- b. Receive reports of the treatment meted against the religion of Allah in some parts of the North especially Plateau State.
- c. Re-strategize towards the full implementation of Jihad in Jos Plateau and as well as Kaduna State.
- d. The liberation of Kaduna State.

As stated earlier, Christianity is fast growing in the Northern part of this country which is totally uncall for. We are aware that Christianity has humiliated Islam in the South West thus Islam can no longer thrive there. We are treated with contempt and as non Nigerians in that part of the country.

Furthermore, the Christians brought out a scheme so as to get rooted and get liberated in the North they brought what they called Middle Belt. This Middle Belt curve all the Christian's dominated areas and is been championed by the Plateau big wigs.

The Christians have now extended not only in remote areas of the North but inside the cities as against the wishes of our Islamic leaders whom are no more. It should be noted that our leaders like the great Sardauna, Tafawa Balewa, Alhaji Abubakar Gummi, Alhaji Shehu Maigandu, Mallam Isaka Ramallan etc admonished us not to allow a church built in city in the North. This is because it is against the Qur'an for a church standing close and in rivalry with a mosque. It is also their wish that part of the North be dominated and ruled by Muslims. it will afford the North the opportunity to practice shari'a law while other parts of the country

use the common law

To checkmate and caution the growing of Christianity in the Northern country, all Islamic clergies will pay a visit to all governors of the North and traditional rulers who are Muslims and presenting them the following demands.

- i. They must devise policies to see that all Churches built in their respective states capitals are demolished to allow mosques in the city capital. Providing the Christians specific place to build their churches and be called Church Street.
- ii. Christians preaching in the streets in the respective states through the media and other means be regulated.
- iii. As it was the case in Katsina State during Governor Umaru Musa Yar'adu'a, a ban should be place in all the Northern States governed by a Muslim on teaching of Christian Religion in schools.
- iv. Place a ban on Christians using the public address system during the services. These demands must be adhered to and adopted by the Muslims governor for the interest of peace. They should note that we have more control of the masses and the youths. Any attempt by the Christians to disobey or revolt against the decision shall mean fighting against the religion of Allah which the followers of Allah shall not watch but we shall violently wipe away the Christians in these states.

REPORT FROM JIN PLATEAU

Sheik Sani Yahaya of JEBWIS on behalf of the  Chairman presented the challenges and the maltreatment against the religion of Allah by the Governor of Plateau, his government, the Berom nation and as well as the entire Christians. He has also stated the efforts they have made and their stands.

He started by saying that Muslims in Plateau State are in great danger. Muslims in Plateau are dehumanized, humiliated, maltreated and scorned by the Christians according to him. The machinery of government is used by the Berom Christians.

Points to be noted include:

1. Over 7,000 Muslims are massacre by the Christian in Plateau State since governor Jang assumed office.
2. Governor Jang came to destroy Islam in Plateau State and to drive away any non Berom Christian in Plateau State.
3. Un-estimated houses with Billions of Naira, were destroyed by the Berom Christians since Governor Jang assumed office.

4. There is an existing plan and policy by Governor Jang and his government to wipe out any Muslim in Jos through the 'Jos Master Plan', placing a ban on motorcycle operation, disallowing our traders to trade freely and unnecessary arrest of our youths.
5. No Muslim is given employment with the Plateau State government.
6. The government of Plateau State has ordered that Plateau State Water Board to stop pumping water in places that are predominantly Muslim.
7. All the crises in Jos are taking place in Berom land.
8. Governor Jan admonish his Berom Christians to keep on killing the Muslims that he has bribed all the Muslims traditional rulers with money and seats to hajj.

The Muslim Ummah in Jos has solemnly resolved to fight the governor, his government and the entire Christians in any way possible. They shall never support this government and they will destroy any development that shall come to Plateau even the existing ones. Again, they are ready for Jihad in the State as we have presently secured the needed arms. Over 3,000 foreign arms have now entered Jos and we will not vote during the governorship election. But we shall ensure that we have the position of the Federal House of Representative, Jos North/Bassa Chairman, Jos North, Senator Representing Plateau North, Plateau State member Jos North-North. They shall shed the last drop of our blood to ensure that the Jos Master Plan and the ban on Okada is realized. The Ummah in Jos shall frustrate the peace and development of the entire state. All traders and Okada riders have been enjoined not to go out for their business without any preparation on a daily basis they are soliciting the support of the entire Muslim Ummah in Nigeria to support Islam in Plateau in cash and in kind as there is an endowment fund raising to procure more arms and especially explosives. They have also declared both open and silent killings in Muslims areas on any Christian and security (No go area).

We have pledge to deal with any Muslim especially those who are dinning together with the governor for their selfish needs without giving a consideration to the Ummah. They shall kill them and their families and generations wipe away, we are watching.

RE-STRATEGIZE TOWARDS THE FULL IMPLEMENTATION OF JIHAD IN JOS, PLATEAU STATE.

Hav'n't seen the need for Islam to take its rightful position in Jos there is need for all Muslim in Nigeria to come to terms and re-strategize Muslims all over should bear in mind

extend their support to the Muslims in Jos Plateau and ensure that Jos is capture and declared a Muslim territory.

With the way the governor and the government of Plateau is dehumanizing scorning the religion of Allah the only solution for our liberation is Jihad. The Muslim Ummah shall use Jihad and ensure that governor Jang did not return to office. Muslim in the state shall ensure that few months before the general elections Jihad will be declare in the state which cannot be controlled even by the security agency with great slaughter and massacre which the Federal Government will have no option than to declare a state of emergency in Plateau. They shall also use some of his political rivals to fight him and ensure that he did not return to office by plight of Muslims will be reduced. While they guard their areas, they must go out and attack the Christian dominated area and also destroy any government property at their disposal in the state.

THE LIBERATION OF KADUNA STATE

Kaduna State is one of the historic and ancient cities in the history of Northern Nigeria. It is a state which has bred so many Islamic and National leaders. It is also a place where so many meetings and plans were carried out. Kaduna is the Headquarters of Northern Nigeria. For a number of years Kaduna has witnessed its own share of religious crisis and for quite sometimes Christianity has been silenced thus the Muslims dominating every sector. It explains why the present Southern Kaduna is agitating for the creation of a new state go give them breathing space. The Muslim Ummah in the entire Northern Nigeria are greatly shocked, surprised and sad with the present development given a Christian the opportunity to rule for the history of this country a non Muslim has never rule Kaduna State because of our numerical strength, political power and prowess and as well as its significance to Islam.

The present development given Patrick Yakowa to rule Kaduna State is totally uncalled for and a slap to Islam in Nigeria, it is considered as equal a Christian ruling in Mecca, Iran or Iraq. No Muslim can be given the opportunity of such magnitude of events as deputy governor in Plateau State. The most worrisome situation is where Governor Yakowa is making moves to contest for the seat of the governor in 2011 and hoping to use government machines at his disposal. He also backed the support of the President his fellow Christian. To face the challenge in Kaduna State all Muslims must rise to their

Governor Patrick Yakowa or any Christian does not assume that seat forever. We must devise all political and Jihadic means to ensure that we realize our plan.

1. 90 days from now, Muslim must ensure that peace has escaped Kaduna State.
2. Muslims must hunt all Christians especially those in the cities.
3. We must either use the security or other means to eliminate the governor, his family and all those they perceive are supporting him.
4. Must face and frustrate all Christians in Kaduna who are civil servants and traders.
5. Attacks must continue to be launched against Christians predominated areas as signals before Jihad.
6. Shall use our men who are in the Military to help us bring arms and ammunitions into Kaduna.
7. Use all resources possible to have control of the security before and during these attacks.

This meeting is highly confidential but can be related to all Muslims who wishes to support this movement.

Hausa Elders Forum,
Plateau State.
17th July, 2010.

The Sultan of Sokoto,
And Sarkin Musulmai.

Dear Sir,

THE MUSLIMS UMMAH IN TOTAL DIVISION AND CONFUSION IN JOS

We write to your exalted position with the belief that you are able to see the lingering problem among the Muslims Ummah in the state. The Muslim Ummah after the 2010 January Jos Crisis has divided along ethnic lines. This is because the Fulani Muslims communities have continued to blame the Hausa Muslims community for the loss of their lives and cattle. They said that the Hausa Muslims Community started the crisis without allowing them to complete their arrangements, that is to flee with their cattle's even though sufficient arms were provided by the JNI.

Sir, after series of dialogue by the two warring sides the Fulani Muslims have refused to unite and joint forces with the entire Muslim community in the state. At our own level we have made a lot of efforts but is yielding no result. However, we have reminded the Fulani community of several attacks that they have launched in Plateau State. The Dogo Nahawa and Riyom communities in Jos. Their recent plans at Gummau to launch other attacks in Jos which shall have a devastating consequence on the entire Muslim Ummah in the state. They have strategized to attack Maza village in Jos North Local Government. Shou, Bisichi, Nding, Kassa and Kamang all in Barkin-ladi Local Governments. Shen, Du, Vom in Jos South and Lwa, Rim and Jol in Riyom Local Government.

The Fulani Muslims should be reminded that while they are accusing the Hausa Muslim community for the misfortune during the 2010 January Jos crisis, which they considered has affected the entire Ummah, they should also consider that what they have done and what they are planning to do also have a devastating consequence on the entire Muslim Ummah.

We are appealing to your exalted office to find a means of addressing this crisis for the interest of the entire Ummah in Jos. We also wish that all ethnic Muslims communities such as the Hausa Muslims communities, the Yoruba Muslim communities and the Plateau Indigenous Forum will come to resolve their grievances for the best interest of the Muslim Ummah. May Allah Grant you the wisdom to see to this problem.

Thanks!

NASIRU YAHAYA
